**Breeding Seminar
109 Hagen Court
Lexington, SC 29072**

The goal of the ABC's of Dog Breeding is to take a practical, step by step approach to the art and science of breeding. The seminar explains many of the practical genetic breeding principles that can be of benefit to breeders of all dog breeds. Included is a hands on workshop with live dogs on how to estimate forequarter and hindquarter angulation. The following seven key breeding tools and concepts are covered:

- 1) Genetics**
- 2) Breeding systems**
- 3) Pedigree**
- 4) Selection**
- 5) Anatomy**
- 6) Kennel Blindness**
- 7) Genetic defects**
